

New features and changes in the GTC compared to the previous contract

- (1) scope of application
- (2.5) to assure everyone that the registered products fulfil the basic admission criteria in the currently valid version (published at www.input-list.com)
- (2.10) to grant permission for information published in the Input List to be forwarded to organic associations, databases (e.g. Organic Inputs Evaluation AT), manufacturers of software for agricultural operations and other recipients at the discretion of FiBL Projekte GmbH, for publishing in print media, on the Internet, in software and in other media.
- (4) ... At the request of FiBL Projekte GmbH, the company undertakes to provide the necessary product samples or material samples of the main components of a product.
- (5) The sentence advertising the listing in the German Input List has been adapted:
...“Listed in FiBL Input List (Germany)” or “Included in the FiBL list of permitted inputs for organic production in Germany”...
- (5) The sentence advertising the listing in the FiBL Input List Spain has been added:
...“Listed in FiBL Input List (Spain)” or “Included in the FiBL list of permitted inputs for organic production in Spain”...
- (6) The period of validity for the inclusion in the Input List is limited to the 31st of December of the following year.
- (6.1) Cancellation within 14 days after submission of application is free of charge. After 14 days, no free cancellation is possible - the full amount for product evaluation will be charged.
