

Scale of fees of Input list for organic production

Part 1: Fees in year of product application (notes in appendix I a)

Services	Fees (net)
Evaluation of a product for compliance with criteria of <u>European Input List</u> (and Demeter International) incl. one national legislation and association standards	325,00 €
Evaluation of a product for compliance with <u>other</u> national legislations and association standards (as of evaluation for second national list)	200,00 €
Evaluation of a mineral feed (production according to guidelines of Bioland association) for compliance with EU organic regulation incl. one national legislation	162,50 €
Evaluation of a further tradename for an already listed product of the same company for compliance with criteria of <u>European Input List</u> incl. one national legislation	175,00 €
Publication / listing of a product in the European Input List and further national input lists (compliance required)	free of charge

Part 2: Fees in subsequent years (notes in appendix I b)

Services	Fees (net)
Annual evaluation as part of re-registration/prolongation process	free of charge
Publication / listing	
Listing of a product in the European Input List incl. one national input list	150,00 €
Listing of a product in further national input lists (as of second national list)	75,00 €
Listing of a mineral feed (production according to guidelines of Bioland association) in the European Input List incl. one further national list	75,00 €
Additional listing of product in further sub-categories; fee per sub-category	50,00 € (fertilizer, plant strengthener, plant protection agent, antiparasitica) 25,00 € (cleaning agent, disinfectant)
Discount (as of 16th product) Exception: mineral feed (production according to guidelines of Bioland association) The discount will be granted for product 16, 17, 18 and following.	50% of listing fee

Sample calculations for accruing fees, see appendix II.

Scale of fees of Input list for organic production

Part 3: further fees (notes in appendix I c)

Services	Fees (net)
Processing following failure to meet deadlines; Surcharge per product	100,00 €
Expert rating, evaluation of single components for inputs; hourly rate (estimation on demand)	100,00 €
Extra effort in evaluation process hourly rate	100,00 €
Extra charge for invoicing in case of special request such as divergent layout (e.g. different invoice recipient per category) charge per invoice	25,00 €
Additional listing confirmation charge per confirmation	50,00 €

All amounts mentioned are exclusive of value added tax (VAT).

Payment terms: 14 days upon date of invoice.

All bank charges are at applicants cost.

Modifications on scale of fees will be annouced by e-mail.

Version: April 2023

Appendix I: additional information

This scale of fees shows you which fees could occur for companies publishing products in the Input list for organic production. The listing fees consists of the items that apply to your product. Sample calculations for accruing fees, see appendix II.

a) The fees for first application are indicated in part 1.

Your product will evaluate for compliance with the currently valid criteria of European Input List which basis is the current EU organic regulation. If compliant, it will be added to the European Input List and published on www.inputs.eu/input-search. In case of compliance also with the guidelines of Demeter International, it will added to the association list of Demeter International and published on <https://demeter.net/services/approved-inputs/#/>.

Additionally, the evaluation for compliance with following national legislations and association standards can be applied for:

- Input list Germany (incl. association lists of Biokreis, Bioland, Demeter, ECOVIN, Gäa, Naturland), published on www.betriebsmittelliste.de/bml-suche;
- Input list Spain (incl. association list of Demeter España); published on www.input-list.com/search (only for categories fertilizer and plant protection agents)

For further national lists, which are not published by FiBL Projekte GmbH but by other national FiBL institutions, please refer to <https://www.inputs.eu/national-lists.html>.

Upon receipt of your product application, the evaluation fees will be invoiced. It will be evaluated by our expert team and, if compliant, added to input list. Publication/listing in the year of application is free of charge.

Please note: In case a product should be published in different main categories (e.g. fertilizer and cleaning agents), separate product application for each main category must be submitted. The evaluation fees are charged for each application.

b) During the following year, you will receive our request for re-registration. The fees for listing in subsequent years are mentioned in part 2.

The re-registration ensures that your product will be published still in input list assuming it is compliant with the currently valid criteria. The validity will be extended by one year.

c) Further fees for special services and other charges are mentioned in part 3.

Extra effort in evaluation process can be charged after prior information of the applicant, for example, for the following reasons: frequent requests due to incompletely submitted application documents; frequent demands to required changes on labels (impermissible product claims); products that have many other products as recipe components.

Appendix II: Sample calculations

I.1 Fertilizer

Application of a fertilizer for evaluation of compliance with criteria of European Input List (and Demeter International) and of Input list Germany for categories «1-5-2 Liquid fertilizers with trace elements» and «1-3 Potassium-rich fertilizers (K)».

Fees in year of product application

Services	Fees (net)
<input checked="" type="checkbox"/> Evaluation of a product for compliance with criteria of <u>European Input List</u> (and Demeter International) incl. one national legislation and association standards → EU and Germany	325,00 €
<input type="checkbox"/> Evaluation of a product for compliance with <u>other</u> national legislations and association standards (as of evaluation for second national list)	200,00 €
<input type="checkbox"/> Evaluation of a further tradename for an already listed product of the same company for compliance with criteria of <u>European Input List</u> incl. one national legislation	175,00 €
<input checked="" type="checkbox"/> Publication / Listing of a product in the European Input List and further national Input Lists (compliance required) → EU and Germany	free of charge
Amount payable in year of application	325,00 €

Fees in subsequent year(s)

Services	Fees (net)
<input checked="" type="checkbox"/> Annual evaluation as part of re-registration/prolongation process	free of charge
Publication/Listing	
<input checked="" type="checkbox"/> Listing of a product in the European Input List incl. one national input list → EU and Germany	150,00 €
<input type="checkbox"/> Listing of a product in further national input lists (as of second national list)	75,00 €

Scale of fees of Input list for organic production

<input checked="" type="checkbox"/> Additional listing of product in further sub-categories; fee per sub-category → 1 additional sub-category «1-3 Potassium-rich fertilizers (K)»	1 x 50,00 € per fertilizer, plant strengthener, plant protection agent, antiparasitica) 25,00 € per cleaning agent/ disinfectant
<input type="checkbox"/> Discount (as of 16th product) Exception: mineral feed (production according to guidelines of Bioland association) The discount will be granted for product 16, 17, 18 and following.	50 % of listing fee
Amount payable in subsequent year(s)	200,00 €

I.2 Plant protection agent

Application for a plant protection product for evaluation of compliance with criteria of European Input List (and Demeter International), of Input list Germany and Input list Spain for category «2-1-2 Copper based products».

Fees in year of product application

Services	Fees (net)
<input checked="" type="checkbox"/> Evaluation of a product for compliance with criteria of <u>European Input List</u> (and Demeter International) incl. one national legislation and association standards → EU and Germany	325,00 €
<input checked="" type="checkbox"/> Evaluation of a product for compliance with <u>other</u> national legislations and association standards (as of evaluation for second national list) → Spain	200,00 €
<input type="checkbox"/> Evaluation of a further tradename for an already listed product of the same company for compliance with criteria of <u>European Input List</u> incl. one national legislation	175,00 €
<input checked="" type="checkbox"/> Publication / Listing of a product in the European Input List and further national input lists (compliance required)	free of charge
Amount payable in year of application	525,00 €

Scale of fees of Input list for organic production

Fees in subsequent year(s)

Services	Fees (net)
<input checked="" type="checkbox"/> Annual evaluation as part of re-registration/prolongation process	free of charge
Publishing/Listing	
<input checked="" type="checkbox"/> Listing of a product in the European Input List incl. one national input list → EU and Germany	150,00 €
<input checked="" type="checkbox"/> Listing of a product in further national input lists (as of second national list) → Spain	75,00 €
<input type="checkbox"/> Additional listing of product in further sub-categories; fee per sub-category	50,00 € per fertilizer, plant strengthener, plant protection agent, antiparasitica) 25,00 € per cleaning agent/disinfectant
<input type="checkbox"/> Discount (as of 16th product) Exception: mineral feed (production according to guidelines of Bioland association) The discount will be granted for product 16, 17, 18 and following.	50 % of listing fee
Amount payable in subsequent year(s)	225,00 €

I.3 Cleaning agent

Application for a cleaning agent for evaluation of compliance with criteria of European Input List (and Demeter International) and of Input list Germany for sub-categories «4-20-1 Products for cleaning of food processing and storage rooms»,

«4-21-1 Acidic cleaning agents for the dairy industry»,

«4-22-1 Acidic cleaning agents for juice and wine processing»,

«4-23-1 Acidic cleaning agents for breweries and the beverage industry».

Fees in year of product application

Services	Fees (net)
<input checked="" type="checkbox"/> Evaluation of a product for compliance with criteria of <u>European Input List</u> (and Demeter International) incl. one national legislation and association standards → EU and Germany	325,00 €
<input type="checkbox"/> Evaluation of a product for compliance with <u>other</u> national legislations and association standards (as of evaluation for second national list)	200,00 €
<input type="checkbox"/> Evaluation of a further tradename for an already listed product of the same company for compliance with criteria of <u>European Input List</u> incl. one national legislation	175,00 €
<input checked="" type="checkbox"/> Publication / Listing of a product in the European Input List and further national input lists (compliance required)	free of charge
